

Corporate Governance

1. Overview of corporate governance

(1) Basic corporate governance principles

The general principles of corporate governance at Epson are as follows:

- Respect the rights of shareholders, and ensure equality.
- Bear in mind the interests of, and cooperate with, stakeholders, including shareholders, customers, local communities, business partners, and Epson personnel.
- Appropriately disclose company information and maintain transparency.
- Directors, Executive Officers, and Special Audit & Supervisory Officers shall be aware of their fiduciary duties and shall fulfill the roles and responsibilities expected of them.
- Engage in constructive dialogue with shareholders.

To achieve the goals declared in the Management Philosophy, promote sustainable growth, and increase corporate value over the medium and long term, Epson strives to continuously enhance and strengthen corporate governance so as to realize transparent, fair, fast, and decisive decision-making.

Under a company with an Audit & Supervisory Committee, to further increase the effectiveness of corporate governance, Epson further improves the supervisory function of the Board of Directors, further enhances deliberation and speeds up management decision-making.

(2) Overview of and reasons for adopting the current system of corporate governance

Epson is structured as a company with an Audit & Supervisory Committee. It has a Board of Directors, an Audit & Supervisory Committee, and a financial auditor. It has also voluntarily established advisory committees for matters such as the Director nomination and compensation.

This governance system was adopted to further increase the effectiveness of corporate governance by strengthening supervision over management and by enabling the Board of Directors to devote more time to discussions while speeding up decision-making by management.

The main corporate management bodies and their aims are described below:

Board of Directors

The Board of Directors, with a mandate from shareholders, is responsible for realizing efficient and effective corporate governance, through which Epson will accomplish its social mission, sustain growth, and maximize corporate value over the medium and long term. To fulfill these responsibilities, the Board of Directors will exercise a supervisory function over general management affairs, maintain management fairness and transparency, and make important business decisions, including decisions on things such as management plans, business plans, and investments exceeding a certain amount.

The Board of Directors is composed of 11 Directors, including five Outside Directors described in “2. Officers.” Meetings of the Board of Directors are, as a rule, held once per month and as needed. In FY2020, the Company held a total of 13 meetings of the Board of Directors with 100% attendance by all Directors. Chairman of the Board, who is a non-executive director, acts as the chairman of the Board meetings.

The Board of Directors makes decisions on basic business policies, important business affairs, and other matters that the Board of Directors is responsible for deciding as provided for in internal regulations. Business affairs that the Board of Directors is not responsible for deciding are delegated to executive management, and the Board monitors these. To speed up management decisions and increase business agility as a company with an Audit & Supervisory Committee, Epson has expanded the scope of affairs delegated to executive management from the Board of Directors, including capital investments below a certain threshold; and has limited board deliberations only to the most important issues, including governance, capital policy, compliance, risk management and megatrend and medium- to long-term strategies. Corporate Governance Policy states that at least one-third of the board members should be outside directors.

Audit & Supervisory Committee

The Audit & Supervisory Committee, with a mandate from shareholders, is responsible for independently and objectively auditing and monitoring the execution of director duties and for ensuring the sound and sustained growth of Epson. The Audit & Supervisory Committee verifies the effectiveness of the internal control system and conducts audits primarily in cooperation with internal audit departments and the financial auditor. The Audit & Supervisory Committee has established basic guidelines for selecting outside financial auditors and evaluates their independence, audit quality, etc. based on certain standards. Resolutions concerning financial auditors selected by the Committee per the guidelines are submitted for approval at a general meeting of shareholders. The Audit & Supervisory Committee also discusses the selection, dismissal, resignation, and compensation of Directors who are not Audit & Supervisory Committee members and decides on the opinions to be presented at a general meeting of shareholders.

The Audit & Supervisory Committee is composed of four Audit & Supervisory Committee members, three of whom are Outside Directors. It is chaired by a full-time member of the Audit & Supervisory Committee. Meetings are held once per month and as needed.

Corporate Strategy Council

The Corporate Strategy Council is an advisory body to the President whose purpose is to help ensure that the right decisions are made based on a range of opinions on the executive management side. Meetings of the Corporate Strategy Council are where Directors, Executive Officers, and Special Audit & Supervisory Officers exhaustively examine important business topics that affect the Epson Group as a whole and matters on the agenda for meetings of the Board of Directors.

Compliance Committee

The Compliance Committee's function is to discuss the content of reports that it receives concerning important compliance activities, and report its findings and communicate its opinions to the Board of Directors in order to see that compliance activities are appropriately executed by line management.

As an advisory body to the Board of Directors, the Compliance Committee is composed of Outside Directors and Directors who are Audit & Supervisory Committee members. The Compliance Committee is chaired by a full-time member of the Audit & Supervisory Committee. Meetings are held every half year and as needed. Financial auditors and the head of the internal audit control departments attend meetings of the Committee as observers.

A Chief Compliance Officer (CCO) is elected by the Board of Directors and supervises and monitors compliance-related affairs on the whole. The CCO periodically reports the state of compliance affairs to the Compliance Committee.

Director Nomination Committee and Director Compensation Committee

Epson has established the Director Nomination Committee and the Director Compensation Committee as advisory bodies to the Board of Directors, with their secretariats operated by the human resources department. These Committees, which are composed primarily of Outside Directors, are designed to ensure transparency and objectivity in the screening and nomination of candidates for Director, Executive Officer, and Special Audit & Supervisory Officer and in matters of Director compensation.

The overview of each of these Committees is as follows.

Composition

Both the Director Nomination Committee and the Director Compensation Committee are composed of all Outside Directors, President and Representative Director, and Officer in charge of human resources. Directors who are full-time members of the Audit & Supervisory Committee can attend meetings of either Committee as observers. Also, based on the resolution of the board of directors in June 2021, the Outside Directors shall select committee chairs from among themselves.

Activities of the Director Nomination Committee

The Committee met eight times during the period from April 2020 to the Ordinary General Meeting of Shareholders held in June 2021. The Committee deliberated on matters including policies for selecting Officers (Directors, Executive Officers and Special Audit & Supervisory Officers) and proposing candidates, changing the

length of terms of offices of Executive Officers, and chairs of the Director Nomination Committee and Director Compensation Committee.

Activities of the Director Compensation Committee

The Committee met nine times during the period from April 2020 to the Ordinary General Meeting of Shareholders held in June 2021. The Committee deliberated on matters including the amount of base compensation and bonuses for each Director, as well as granting of basic points under the performance-linked compensation plan.

(3) Approach to selecting Directors

Epson believes that a diverse Board of Directors is useful for facilitating substantive board discussions that cover all angles. Therefore, our basic policy is to maintain a board that is well-balanced and composed of persons who combine a broad spectrum of knowledge, experience, and skill in their respective areas of expertise, without regard to gender, race, ethnicity, country of origin, nationality, cultural background, age, etc.

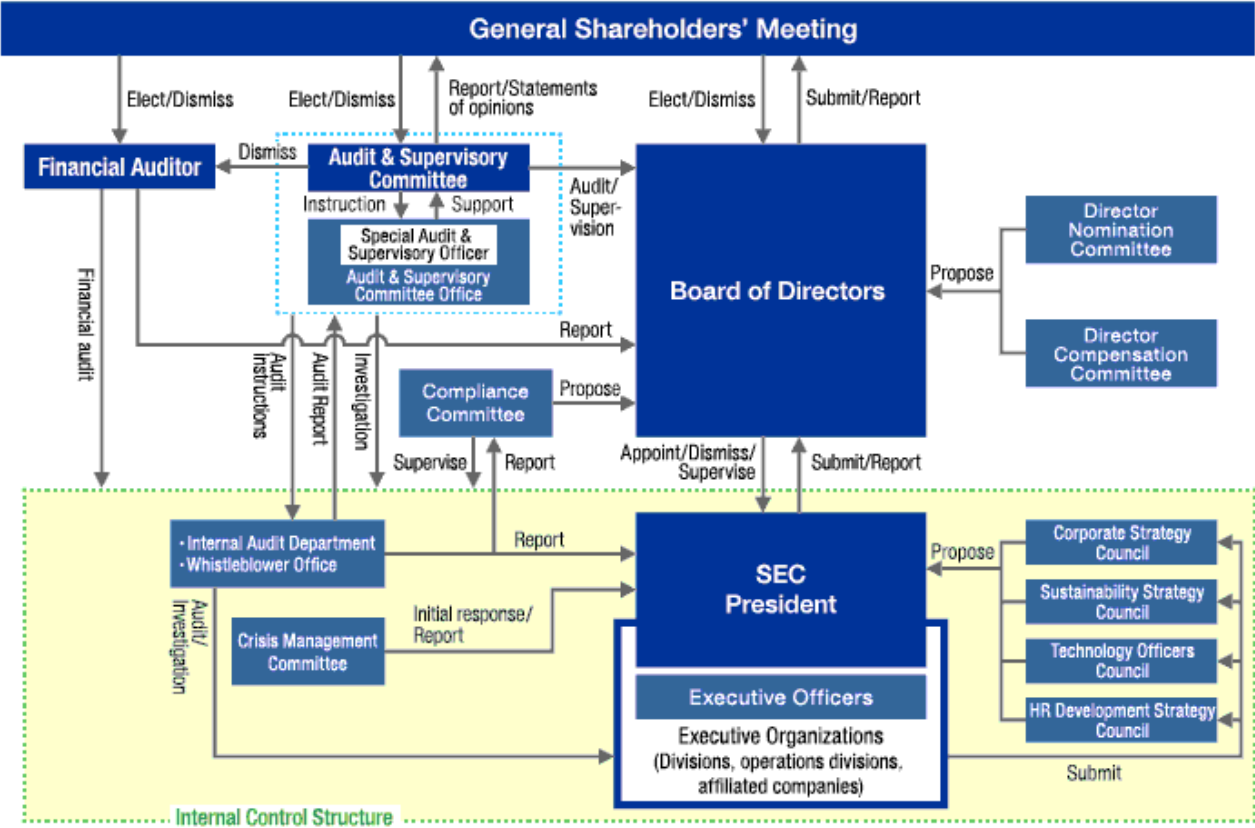

The current Board of Directors has been established based on this policy, clarifying a management system toward achieving the Management Philosophy and Corporate Vision in order to realize sustained growth and increase medium- to long-term corporate value. The skills of the Company's Directors and areas in which they are particularly expected to show expertise are as follows.

The Company considers its Management Philosophy to be its most important business concept, and to realize it Epson has established "Principles of Corporate Behavior" that are shared across the Group, including at subsidiaries. The Company will establish the following basic policy regarding the internal control system (a system for ensuring that business is conducted suitably by the corporate group) and provide an improved internal control system for the Epson Group as a whole.

Compliance

- (1) The Company will establish "Principles of Corporate Behavior" as a guide for putting the Management Philosophy into practice. The Company will also establish regulations that spell out things such as basic compliance requirements and the organizational framework.
- (2) The Company has created a Compliance Committee to serve as an advisory body to the Board of Directors. The Compliance Committee is chaired by a full-time member of the Audit & Supervisory Committee and is composed of Outside Directors and members of the Audit & Supervisory Committee. The Compliance Committee meets regularly and as needed to hear and discuss important matters concerning the Company's compliance program. It reports its findings and offers opinions to the Board of Directors. Financial auditors and the head of the internal audit control departments can attend meetings of the Compliance Committee as observers.
- (3) A Chief Compliance Officer (CCO) is elected and supervises and monitors the execution of all compliance operations. The CCO periodically reports the state of compliance affairs to the Compliance Committee.
- (4) Compliance promotion and enforcement will be supervised by the president of Seiko Epson. Group-wide compliance programs will be carried out by Head Office supervisory departments with the cooperation of departments in the various operations divisions and subsidiaries. Compliance programs of the divisions and their related subsidiaries will be promoted by the respective chief operating officers of the divisions. The compliance management department helps to ensure the completeness and effectiveness of compliance programs by monitoring compliance across the Epson Group and by taking corrective action or making adjustments where needed.
- (5) The Corporate Strategy Council, an advisory body to the president comprised of members of the Board of Directors, etc. of the Company, will address important matters with respect to compliance promotion and enforcement in the Epson Group as a whole, including subsidiaries. The Council will strive to ensure the effectiveness of compliance by exhaustively discussing and analyzing the implementation of programs for assuring observance of statutes, internal regulations, business ethics, and initiatives in high-risk and other key areas.
- (6) The Company, including its subsidiaries, will strive to provide an effective whistleblowing system. Employees are encouraged and are able to easily and immediately report compliance violations using internal and external hotlines and e-mail addresses. Controls are in place to protect whistleblowers from reprisal, and allegations are reported to the Company's Audit & Supervisory Committee, the Compliance Committee, and the Corporate Strategy Council in a way that whistleblowers cannot be identified.
- (7) The Company strives to enhance compliance awareness by providing Epson Group employees with web-based training and other educational opportunities.
- (8) The president of Seiko Epson periodically reports important compliance-related matters to the Board of Directors and takes measures as needed to respond to issues.

System for ensuring proper financial reporting

- (1) The creation of proper financial reports is recognized as a critical issue. The Company shall build, on the orders of the president, a system that enables internal control over financial reporting to be properly arranged, implemented, and evaluated. The financial reports will not be limited in scope to evaluations and reporting required by the Financial Instruments and Exchange Act but will also include reporting over the scope deemed

necessary by management.

- (2) A basic regulation and other regulations and standards pertaining to internal control over financial reporting shall be created, and their observance shall be obligatory across the entire Epson Group.

- (2) The Company has instituted a system to ensure the appropriate and efficient execution of business. To that end, the Company has established regulations governing organizational management, levels of authority, the division of responsibilities, and the management of affiliated companies, thus distributing power and authority across the entire Group.
- (3) Personnel responsible for business operations report the matters below to the Board of Directors at least once every three months.

The Company has also set up the risk management department, monitors overall risk management Group-wide, makes corrections and adjustments thereto, and ensures the effectiveness of risk management programs.
- (3) The Corporate Strategy Council strives to ensure effective management of serious risks that could have an egregious effect on society by agilely and exhaustively discussing and analyzing ways to identify and control risks. Also, when major risks become apparent, the president leads the entire company in mounting a swift initial response in line with the Company's prescribed crisis management program.
- (4) The president of Seiko Epson periodically reports critical risk management issues to the Board of Directors and formulates appropriate measures to respond to these issues, as needed.

Ensuring the appropriateness of operations in the corporate group

- (1) The Group's management structure helps to ensure that operations in the corporate group, including subsidiaries, are conducted appropriately. Essentially, the Company is organized into product-based divisions. Each division is headed by a chief operating officer who owns global consolidated responsibility for that business. Meanwhile, supervisory functions within the Head Office own global responsibility. Responsibility for providing the framework for business operations at subsidiaries is owned by the head of each business. Group-wide corporate functions are the responsibility of the heads of Head Office supervisory departments.
- (2) The Company has business processes that enable business to be controlled on a Group level. This is accomplished by regulations governing the management of affiliated companies that require subsidiaries to report or acquire pre-approval for certain business affairs from the parent company, Seiko Epson, and by requiring issues that meet certain criteria to be submitted to Epson's Board of Directors for resolution. The Company has established regional head offices in certain regions to supervise local subsidiaries in order to ensure the suitability and efficiency of operations Group-wide.
- (3) Per the Basic Regulation for Internal Audits, internal audit departments serve as monitoring organizations that are independent from the management and supervisory functions of the operations divisions and the Head Office. Internal audit departments audit internal controls and the state of their implementation in all Epson Group companies, including subsidiaries. The findings of the internal audit departments are presented to the head of the audited organization along with requests for corrective action, where needed. This information is

also regularly reported to the president of Seiko Epson and to the Audit & Supervisory Committee. In this way, Epson strives to optimize operations across the entire Group.

Safeguarding and management of work-related information

- (1) Information on the performance of duties is safeguarded and managed in accordance with regulations governing, among other things, document control, management approval, and contracts. All directors are able to access this information at all times.
- (2) The Company strives to prevent the leak and loss of Epson Group internal information by managing confidential information according to the level of sensitivity, in accordance with internal information security regulations.

Audit system

- (1) The Audit & Supervisory Committee can interview Directors who are not members of the Audit & Supervisory Committee, executive officers, and other personnel whenever they deem necessary in the performance of duties based on the Audit & Supervisory Committee Audit Regulation.
- (2) Audit & Supervisory Committee members can attend Corporate Strategy Council sessions, corporate management meetings, and other important business meetings that will enable them to conduct audits based on the same information as that available to directors who are not members of the Audit & Supervisory Committee. Members of the Audit & Supervisory Committee also routinely review important documents related to management decision-making.
- (3) An Audit & Supervisory Committee Office was set up to assist the duties of the Audit & Supervisory Committee. The head of the Audit & Supervisory Committee Office serves as the Special Audit & Supervisory Officer and assigns full-time personnel to the Audit & Supervisory Committee Office. The head and personnel of the Audit & Supervisory Committee Office discharge their duties to assist the Audit & Supervisory Committee, obeying the orders of the Audit & Supervisory Committee alone and not orders from Directors who are not members of the Audit & Supervisory Committee. Matters relating to the personnel of the office must be approved in advance by the Audit & Supervisory Committee.
- (4) To ensure that audits by the Audit & Supervisory Committee are systematic and effective, a framework has been created to secure close cooperation between the internal audit departments and the Audit & Supervisory Committee. Furthermore, prior consent from the Audit & Supervisory Committee must be obtained for the appointment and dismissal of the head of the internal audit control departments.
- (5) If a situation involving the Audit & Supervisory Committee or cooperation with the internal audit departments or other organizations is observed to interfere with the effectiveness of audits by the Audit & Supervisory Committee, the Audit & Supervisory Committee can ask the representative director or Board of Directors to take corrective action.
- (6) The Audit & Supervisory Committee receives audit reports from internal audit departments and can issue specific instructions to internal audit departments as needed. If the instructions issued to internal audit departments by the Audit & Supervisory Committee and the president are in conflict, the president will have the internal audit departments honor the instructions of the Audit & Supervisory Committee.
- (7) Per the Audit & Supervisory Committee Audit Regulation, the Audit & Supervisory Committee can ask Directors who are not members of the Audit & Supervisory Committee, the compliance management department, and the risk management department, as well as others to report or explain the state of management within the Epson Group, including subsidiaries. It can also view supporting materials. A system shall be put in place to protect reporters from reprisal for having made a report, and the identity of the reporter shall be protected even if the representative director or Board of Directors, for example, is asked to make corrections and so forth based on the report.
- (8) The Audit & Supervisory Committee shall strive to enhance the effectiveness of audits by holding regular discussions with financial auditors.
- (9) The Audit & Supervisory Committee and the representative director regularly meet to enable the Committee to directly assess business operations.

(11) Basic policy regarding company control

Epson's board of directors agreed on a basic policy governing persons who control our financial and business policy decisions (hereinafter the "basic policy").

1) Overview

Endowed with a rich legacy of efficient, compact, and precision technologies, Epson will seek to continuously create game-changing customer value and play a central role in creating a better world as an indispensable company by forging innovations through challenges that are bold, imaginative, and exceed our own vision.

Epson believes that its shareholders should be determined through free trade on the market. Therefore, the decision as to whether to accept a takeover offer that would allow another party to acquire a controlling share of Epson and thus gain power over the Company's financial and business decisions (hereinafter referred to as "large-scale acquisitions") should ultimately be put before the shareholders.

However, shareholders' decisions on whether to allow large-scale acquisitions need to be made appropriately. In order to ensure this, Epson believes that information and opinions necessary for shareholders should be provided by both persons seeking to do large-scale acquisitions of Epson's shares and the Epson Board of Directors, and time necessary to examine the information and opinions needs to be secured.

Epson believes that persons who control its financial and business policy decisions need to fully understand Epson's businesses and sources of corporate value, and to understand the importance of Epson's directors, managers, and employees working as a team to create value, pursuing the Epson tradition of creativity and challenge, and earning and keeping the trust of its customers.

2) Summary of measures in support of the basic policy

a. Specific actions in support of the basic policy

In March 2021, we revised our Corporate Vision and established "Epson 25 Renewed," with the goal of achieving sustainability and enriching communities, which we have set as our aspirational goal to pursue into the future.

For "Epson 25 Renewed," we will redefine our business area goals and evolve our strategies. Simultaneously, we will strengthen our efforts for the environment, DX, and co-creation across business domains going forward. In addition, we will clarify our business portfolio, allocate management resources appropriately, and work to further strengthen the business infrastructure that supports strategy execution.

b. Efforts to deter parties who are deemed inappropriate based on Epson's basic policy in gaining control over the Company's financial and business policy decision making

The Company will request those who intend to conduct a large-scale acquisition of the Company shares to provide sufficient information necessary to properly judge whether or not to accept such acquisition, for the benefit of maintaining and increasing its corporate value and common interests of shareholders. The Company will also disclose its Board's opinions on such a large-scale acquisition in order to secure time and information necessary for shareholders to judge whether or not to accept such acquisition, while taking appropriate measures pursuant to the Financial Instruments and Exchange Act, the Companies Act and other applicable laws and regulations.

3) Decisions made by the Epson board of directors regarding specific actions and the justification for those decisions

The above efforts are for contributing to maintenance and increase of Epson's corporate value and the common interests of its shareholders, do not undermine the common interests of its shareholders, and reflect the above basic policy. Moreover, Epson considers that these efforts are not for keeping its Directors in their posts.

(3) Interconnections between supervision or audits by Outside Directors and internal audits, Audit & Supervisory Committee audits, and accounting audits; as well as relationship of these supervision/audits to the internal control department

Interconnections among Audit & Supervisory Committee audits, internal audits, and accounting audits, and the relationship of these audits to the internal control department

In order to make Audit & Supervisory Committee audits systematic and efficient, Epson ensures close collaboration between internal audit departments and the Audit & Supervisory Committee. In relation to the structure of the Audit & Supervisory Committee Office and the coordination system with internal audit departments, if circumstances hindering the effectiveness of the audit by the Audit & Supervisory Committee are found, the Audit & Supervisory Committee requests the representative directors or the Board of Directors to rectify them. Furthermore, prior consent from the Audit & Supervisory Committee should be obtained for the appointment and dismissal of the head of the internal audit control departments. As part of a structure that can continuously pursue the maintenance and improvement of efforts to strengthen coordination between the Audit & Supervisory Committee and internal audit departments, etc., we have put in place a structure in which the head of the internal audit control departments can attend, as an observer, meetings of a Compliance Committee, which is made up of Outside Directors and a Director who is a member of the Audit & Supervisory Committee.

Epson's internal audit departments regularly report their audit plans, audit results and improvement plans for audited companies based on the audit findings to the Audit & Supervisory Committee. In response, the Audit & Supervisory Committee can, when it deems necessary, ask internal audit departments to investigate affairs or can provide specific instructions regarding the performance of their duties. Through these measures, Epson has secured the effectiveness of systematic audit performed by the Audit & Supervisory Committee.

Internal audit departments are seen as a keystone for internal control functions built by the president and operations departments. On the other hand, to ensure the effectiveness and independence of audits by the Audit & Supervisory Committee and internal audit departments, if the instructions issued to internal audit departments by the Audit & Supervisory Committee and the president are in conflict, the president must have internal audit departments honor the requests or instructions of the Audit & Supervisory Committee.

The division in charge of whistleblowing regularly keeps the Audit & Supervisory Committee updated on compliance violation matters. The division provides the Committee with detailed reports especially on matters of material importance immediately after it is notified of such matters, and the Committee examines whether it should deal with the matter based on the detailed report. Also, controls are in place to protect whistleblowers from reprisal for having made a report. Allegations shall be reported to the Audit & Supervisory Committee, the Compliance Committee composed primarily of Outside Directors, and the Corporate Strategy Council in a way that whistleblowers cannot be identified; and the identity of the reporter shall be protected even if the president or a Board of Directors, for example, is asked to correct the matter based on the report.

The Audit & Supervisory Committee and financial auditors work together to enhance the effectiveness of audit by sharing the results of their risk assessment at the beginning of each fiscal year and then confirm the audit plan of financial auditors, and also periodically discuss issues during the period. Financial auditors have the right to observe meetings of the Compliance Committee, which is made up of Outside Directors and a Director who is a member of the Audit & Supervisory Committee.

Cooperation between Outside Directors and internal control functions

Outside Directors who are Audit & Supervisory Committee members and those who are not work cooperatively by attending meetings of the Compliance Committee, regular meetings with Chairman of the Board of Directors and representative directors, and meetings solely of Outside Directors; and also work to enhance collaboration between the supervision or audits by Outside Directors and the internal control functions through on-site audits and on-site visits at subsidiaries both home and abroad.

(4) Internal audits

Audit & Supervisory Committee audits

(Structure of the Audit & Supervisory Committee)

Epson's Audit & Supervisory Committee is composed of four Directors, three of whom are Outside Directors. The three Audit & Supervisory Committee members who are Outside Directors have experienced serving as an attorney-at-law, certified public accountant and corporate manager, and each of them has a high level of expertise, a wealth of experience and considerable insight and has executed balanced audit and supervisory activities as the Audit & Supervisory Committee. Masayuki Kawana was selected to serve as a Full-Time Audit & Supervisory Committee member to help ensure that the Audit & Supervisory Committee works effectively, as it was concluded that it would be necessary for someone to prepare an environment to facilitate audits, attend important internal meetings to smoothly collect internal information, work closely with groups such as the internal audit department, and monitor the daily internal control system.

Audit & Supervisory Committee member Michiko Ohtsuka is a certified public accountant and has an appreciable degree of knowledge and insight into finance and accounting.

In addition, Epson set up an Audit & Supervisory Committee Office headed by the Special Audit & Supervisory Officer as an organization dedicated to supporting the Audit & Supervisory Committee. The Audit & Supervisory Committee Office is independent from executive management and supports the Audit & Supervisory Committee, with a direct reporting line to it.

(Activities of the Audit & Supervisory Committee)

All Audit & Supervisory Committee members properly check and monitor the demonstrating of functions by the Board of Directors, decision-making on important matters, such as business strategies and corporate governance, and execution of business affairs by attending important meetings such as meetings of the Board of Directors, the Director Nomination Committee and the Director Compensation Committee, and regularly discussing with Chairman of the Board of Directors and representative directors, among others. Moreover, Audit & Supervisory Committee members audit and supervise the state of legal compliance and results of execution of operations through regular hearing and conformation letters for execution of duties for each Director and Executive Officer. In addition, Audit & Supervisory Committee members confirm the status of improvement and operation of the internal control system and other matters (including internal control over compliance system, risk management system, and financial reporting) through regular hearing from internal audit departments, supervisory departments for internal control, Head Office supervisory departments, audit & supervisory board members of the Group's subsidiaries, and others. In addition, the Audit & Supervisory Committee or individual Audit & Supervisory Committee members conduct on-site inspection of or remote interviews with business offices and subsidiaries in Japan and overseas, and if it is considered necessary, they ask internal audit departments and the financial auditor for inspection and provide specific directions on the execution of the duties. Through these measures, Epson has secured the effectiveness of systematic audit performed by the Audit & Supervisory Committee.

As for appropriateness of audits of the financial auditor, the Audit & Supervisory Committee confirms the audit plan of the financial auditor after risk assessment is shared between each other at the beginning of the fiscal year, and checks the implementation of audits by regularly holding discussion during the fiscal year, while increasing effectiveness of audits of the both. In addition, the Audit & Supervisory Committee assesses multiple audit firms that have overseas network, including the current financial auditor, based on a wide variety of items such as audit quality, governance system, and global audit system.

With regard to the effectiveness assessment of the Audit & Supervisory Committee, which has been implemented each year since FY2017 after the transition to a company with an Audit & Supervisory Committee, reporting to and sharing with the Board of Directors have been regularized from FY2020. In FY2020, the assessment result that effectiveness of the Audit & Supervisory Committee was ensured was shared at the Board of Directors meeting, and the recommendations for the Board of Directors on improvement in the Company's internal control and governance system, which were extracted in the effectiveness assessment of the Audit & Supervisory Committee, were made.

(Holding and attendance of the Audit & Supervisory Committee meeting)

In FY2020, the Audit & Supervisory Committee conducted discussions and examinations through the fiscal year, focusing on the improvement of global compliance systems, responding appropriately to changes in the environment such as trends in the auditing industry and systematic changes like KAM, watching over the strengthening of the Board of Directors' auditing function, and the progress of the reorganization of corporate strategy structures, as the perspective of important audit and supervision.

The Audit & Supervisory Committee meeting was held 21 times from April 2020 to the Ordinary General Meeting of Shareholders in June 2021. The status of attendance by each Audit & Supervisory Committee member is as shown in the following table.

Internal audits

Epson's internal compliance system guards against potential legal and internal regulatory violations in departmental operations. Internal audit departments serve as monitoring organizations that are independent from the management and supervisory functions of the operations divisions and the Head Office. They audit internal controls and the implementation of controls in all Epson Group companies, including subsidiaries.

Internal audit departments conduct internal audits based on an annual audit plan. After conducting internal audits, they report their observations, including recommendations for improvements based on the facts, to the president and to the Audit & Supervisory Committee in a timely manner. Internal audit departments also regularly report the internal audit situation to the president and Audit & Supervisory Committee. In FY2020, amid restrictions on auditing activities due to the spread of the COVID-19 infection, they conducted audits by using online communication and revising the audit process, upon reviewing the subjects of audits and timing of implementation planned at the beginning of the fiscal year.

With regard to compensation of the Directors who are not Audit & Supervisory Committee members, the Audit & Supervisory Committee shares and discusses what have been examined by the Director Compensation Committee to confirm whether there are special items to be stated at the General Meeting of Shareholders.

Although the matters related to the compensation, including its amount, of the Directors who are not Audit & Supervisory Committee members are left to the discretion of President and Representative Director, these matters are determined based on what have been deliberated and approved at the Director Compensation Committee.

Also, based on the resolution of the board of directors on June 2, 2021, Outside Directors shall select the committee chair from among themselves.

Activities of the Director Compensation Committee

The Committee met nine times during the period from April 2020 to the Ordinary General Meeting of Shareholders held in June 2021. The Committee deliberated on matters including the amount of base compensation and bonuses for each Director, as well as granting of basic points under the performance-linked compensation plan.

Policies

1) Decision-making policies, etc. on compensation for individual Directors who are not Audit & Supervisory Committee members

The Company has established its decision-making policies on compensation for individual Directors who are not Audit & Supervisory Committee members.

<Outline of contents of the decision-making policies>

(i) Basic stance

The Company's officer compensation shall consist of base compensation, which is comprised of fixed compensation and a variable portion, bonuses, which is performance-linked compensation, and stock compensation, which is performance-linked, non-monetary compensation. Given their roles to monitor the management as a whole as well as their independence from the business affairs, the Company pays only fixed compensation as base compensation to non-executive officers and therefore does not pay bonuses and stock compensation that are linked with performance and share price.

Compensation for executive officers

- (a) Compensation shall provide incentive to improve business performance in order to increase corporate value in the near, medium, and long terms.
- (b) Compensation shall be sufficient to attract qualified persons both from within the Company and from outside.
- (c) Compensation shall be commensurate with period performance so that directors and executive officers can demonstrate their management capabilities to the fullest during their tenure.

Compensation for non-executive officers

- (a) The composition of compensation shall guarantee independence so that these officers can suitably exert their general management supervisory function, etc.
- (b) Compensation shall be sufficient to attract qualified persons both from within the Company and from outside.

- (ii) Decision-making policies on base compensation for individual Directors who are not Audit & Supervisory Committee members

Base compensation

Base compensation is a monthly-paid monetary compensation that is determined by taking into account all factors such as an individual's position and responsibilities. Of base compensation, the variable portion for officers with executive duties reflects the results of annual performance based on criteria set according to the individuals' roles. (Variable range: $\pm 20\%$)

- (iii) Decision-making policies on performance-linked compensation for Directors who are not Audit & Supervisory Committee members

Bonuses

An annual bonus is an annually-paid monetary compensation for officers with executive duties that is determined by the achievement level of the annual operating performance targets. The bonus may not be paid in cases where business profit failed to reach a certain threshold. The bonus reflects the results of annual performance based on criteria set according to the individuals' roles. (Variable range of months for bonuses: ± 1.2 months)

[Details of performance indicators and reasons for selection thereof]

In consideration of the nature of bonuses as a short-term incentive, the amount of annual business profit is set as a performance indicator, taking into account factors such as the incurrence of nonrecurring losses.

[Calculation method]

The amount of bonuses payable is calculated by multiplying the monthly amount of base compensation by a certain number of months determined according to the achievement level of the abovementioned performance indicators, in accordance with the calculation standards predetermined by the Board of Directors. The final amount payable is determined by the General Meeting of Shareholders to ensure transparency.

[Results of performance indicators]

Business profit for the fiscal year under review was 61,642 million yen.

Performance-linked stock compensation (officer compensation BIP trust)

Details are as stated in "(iv) Decision-making policies on non-monetary compensation for Directors who are not Audit & Supervisory Committee members."

- (iv) Decision-making policies on non-monetary compensation for Directors who are not Audit & Supervisory Committee members

Performance-linked stock compensation (officer compensation BIP trust)

This is a stock compensation plan for officers with executive duties wherein Company's shares are delivered using a trust scheme. Under this plan, the Company contributes money up to 500 million yen in total for each target period, which covers a period of three consecutive fiscal years, to the trust as compensation for officers eligible for this plan. During each target period, the said trust uses the entrusted money to acquire up to 300,000 shares (in the event of a share split, share consolidation, etc., the said maximum number of shares will fluctuate in proportionate to the ratio of split or consolidation) of the Company's ordinary shares from the stock market or the Company (disposal of treasury shares). Every July during the trust period, basic points are granted based on positions and other factors. The number of points will fluctuate by multiplying the said basic points by a performance-based coefficient determined based on the achievement level of the Company's medium- to long-term performance targets (the maximum number of total points per year is 100,000 points, and one point is equivalent to one share). In principle, after the elapse of three years from the date of grant of basic points, approximately 50% of the Company's ordinary shares equivalent to the number of points after multiplying the performance-based coefficient determined based on the achievement level of the Company's medium-term performance targets, which include business profit, ROS, and ROE, are delivered from the trust, and the remainder is paid as money equivalent to the cash value of the Company's ordinary shares for the purpose of appropriating it as funds to pay withholding

taxes and other taxes.

The plan is designed such that the ratio of stock compensation to base compensation ranges between 10% and 22% depending on position, while the number of shares issued depends on the achievement level of financial indicators during a target period (three years). Under the stock compensation plan, mechanisms (malus and clawback clauses) have been established with which the Company may cause officers to forfeit the right to receive delivery of shares and demand a refund of the amount equivalent to the shares already delivered by the Company in the event of violations of laws and regulations, internal regulations, etc. by officers.

[Details of performance indicators and reasons for selection thereof]

The Company has selected quantitative evaluations (business profit, ROS, ROE, cash flows from operating activities) as well as qualitative evaluations as indicators, so that the performance-linked compensation based on performance indicators can provide appropriate incentives to Directors and for the purpose of showing its commitment to promoting sustainable growth and increasing its medium to long-term corporate value.

[Calculation method]

Calculated by multiplying basic points granted based on factors such as positions by the performance-based coefficient calculated using the following formula (one point is equivalent to one ordinary share in the Company).

Performance coefficient = {(Business profit factor) + (ROS factor) + (ROE factor) + (Operating cash flow factor) + (Qualitative evaluation factor × 2)} ÷ 6

Quantitative evaluation				Qualitative evaluation (*)	Performance coefficient (times)
As at the end of FY2021		Average for three years from FY2019 through FY2021	Cumulative for three years from FY2019 through FY2021	As at the end of FY2021	
Business profit	ROS	ROE	Operating CF		
116.0 billion yen or more	10% or more	12% or more	390.0 billion yen or more	Far above expectation	1.20
106.0 billion yen or more	9% or more	11% or more	380.0 billion yen or more	Above expectation	1.10
96.0 billion yen or more	8% or more	10% or more	370.0 billion yen or more	Meets expectation	1.00
86.0 billion yen or more	7% or more	9% or more	360.0 billion yen or more	Below expectation	0.90
Less than 86.0 billion yen	Less than 7%	Less than 9%	Less than 360.0 billion yen	Far below expectation	0.80

* Items and method of qualitative evaluation

The Director Compensation Committee makes a qualitative evaluation based on the progress of strategies towards achieving the operating performance targets for the previous Mid-Range Business Plan, the amount of effect of exchange rate changes, progress in ESG management (environment assessment, CSR survey ranking and evaluation of the effectiveness of the Board of Directors, etc.) and other evaluation items.

Changes from FY2016–FY2018:

- Variable range of performance-based coefficient was expanded from “0.90x to 1.10x” to “0.80x to 1.20x.”
- “Progress in ESG management” was added as a qualitative evaluation item.

[Results of performance indicators]

As a result of calculations in accordance with the above formula and determination table, the performance-based coefficient for FY2016–FY2018 was 0.90x.

- (v) Decision-making policies on the ratio of compensation for individual Directors who are not Audit & Supervisory Committee members

With regard to the policies on decisions on the ratio of compensation by category for Directors who are not Audit & Supervisory Committee members (excluding Chairman and Director without the right of representation and Outside Directors), the monthly compensation of “base compensation” is used as the basis to calculate “bonuses,” which are calculated by multiplying a certain number of months determined based on the achievement level of performance indicators. In addition, “stock compensation” is designed so that it ranges between 10% and 22% of the monthly base compensation depending on position, with the ratio of “stock compensation” increasing commensurate with position. For FY2020, the composition ratio of the total amount of compensation for Directors who are not Audit & Supervisory Committee members (excluding Chairman and Director without the right of representation and Outside Directors) was as follows: approximately 67% as base compensation, approximately 25% as bonuses, and approximately 8% as stock compensation.

- (vi) Matters regarding delegation of decisions on compensation for individual Directors who are not Audit & Supervisory Committee members

The Board of Directors has provided Mr. Yasunori Ogawa, President and Representative Director, with discretion to determine matters including the amounts of compensation for individual Directors who are not Audit & Supervisory Committee members, as he is in a position to oversee the overall performance of the Company. Mr. Ogawa determines the amounts of compensation for individual Directors who are not Audit & Supervisory Committee members based on the content discussed and approved by the Director Compensation Committee, in which Outside Directors make significant contributions, so that the said authority is exercised appropriately.

- (vii) Other important matters regarding decisions on the details of compensation for individual Directors who are not Audit & Supervisory Committee members

Under the stock compensation plan, mechanisms (malus and clawback clauses) have been established with which the Company may cause officers to forfeit the right to receive delivery of shares and demand a refund of the amount equivalent to the shares already delivered by the Company in the event of violations of laws and regulations, internal regulations, etc. by officers.

<Reasons why the Board of Directors has determined that the details of compensation for individual Directors who are not Audit & Supervisory Committee members for the fiscal year under review comply with the said decision-making policies>

The Board of Directors has confirmed the following points and determined that the compensation for Directors who are not Audit & Supervisory Committee members for the fiscal year under review complies with the said policies.

- A fair, transparent, and rigorous reporting by the Director Compensation Committee in which Outside Directors make significant contributions has been conducted.
- The Audit & Supervisory Committee shared and discussed the details that were discussed by the Director Compensation Committee and reported that there were no items to be stated at the General Meeting of Shareholders.

- 2) Decision-making policies, etc. on compensation for individual Directors who are Audit & Supervisory Committee members

<Method of determining the decision-making policies>

4. Securities held by the Company

(1) Criteria for and approach to classification of investment securities

Epson has classified its investment equity securities held only for earning capital or income gains into stocks held purely for investment purposes and those held for other purposes as stocks held for cross-shareholding purposes. The Company currently holds no securities classified as stocks held purely for investment purposes.

(2) Stocks held for reasons other than pure investment

- a. Method of examining the rationale of shareholding policy and shareholding, and deliberations on whether or not Epson should hold specific shares at the Board of Directors' or other meetings

The Company may acquire and hold shares in companies, including the suppliers of key components and parts, major buyers of its products, major providers of funds and major providers of financial services, when it judges that such acquisition/holding of shares will help maintain and strengthen steady business relationships with these companies and ultimately enhance its corporate value over the medium- to long-term. Such acquisition/holding of shares, however, is preceded by a screening process to confirm the creditworthiness and safety of investing in these companies (equity securities held based on this policy is referred to as "stocks held for cross-shareholding purposes").

Every year, the Board of Directors evaluates on an individual basis, both quantitatively and comprehensively, the risks of the stocks it invests in for cross-shareholding purposes, as well as the profits obtainable by maintaining and strengthening trading relationships with the companies in comparison through comparing them against the internal hurdle rate specified based on the cost of capital, and it examines the rationality of holding such stocks for cross-shareholding purposes from a medium- to long-term perspective. When it deems that holding of the stocks for cross-shareholding purposes as unreasonable, the Company reduces the shareholding.
